DETAILED ACTION

The rejection under section 112, second paragraph is maintained, in part, and repeated below.

The rejection under section 103 is withdrawn since the primary references fails to teach the claimed invention, or, at least motivate, one of ordinary skill to modify its disclosure to include a step of gradually introducing carbamoyl fluoride in a dissolved or finely dispersed state in a solvent into a solvent heel at a temperature of at least 80°C, as required by the claims.

GB 898 fails to remedy the deficiencies of Zanker since this reference fails to motivate one of ordinary skill to modify the disclosure of Zanker to include a step of gradually introducing carbamoyl fluoride in a dissolved or finely dispersed state in a solvent into a solvent heel at a temperature of at least 80°C.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-7 and 9-24 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The claims recite a dehydrofluorination process comprising converting carbamoyl fluoride to the corresponding isocyanate. However, the claim is indefinite since it lacks those steps for specifically performing this process.

The portion of the rejection regarding introducing carbamoyl fluoride in a solvent heel is withdrawn.

Response to Arguments

Applicant argues that independent Claims 1, 17, 18, 19 and 22 all recite active method steps. For example, the process of Claim 1 comprises "gradually introducing carbamoyl fluoride in a dissolved or finely dispersed state in a solvent into a solvent heel at a temperature of at least 80 C. However, no steps of reacting or converting carbamoyl fluoride, or recovering the corresponding isocyanate are recited. Moreover, the claims fail to recite any steps with regard to handling the solvent heel.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
